

Application No. 10/707,317

Remarks:

The following response is to the office action dated March 21, 2005 in the above identified patent application.

As the Examiner stated that the application is in condition for allowance except for formal matters, formal replacement drawings are submitted in preparation for the application to issue. The formal replacement drawings have not had any amendment changes from the informal drawings that were filed with the above identified patent application.

In the office action on page 2, paragraph 1, the Examiner stated that the applicant has invoked 35 C.F.R. Section 112, paragraph 6, with the claim language "means for" in the claims. As the "means for" claim language was invoked numerous times and as the specification is quite long at 50 pages, the Examiner asks that the applicant to point out in the specification where the applicant is invoking each "means for" limitation.

In response, the following is presented:

Claim 1:

(c) means for rotatably mounting said first and second gate members externally to said conduit...

Specification reference:

Paragraphs; 113, 114, 115, 116, and 121

Claims 1 and 17:

(d) means for moving said first and second gate members between the fully

Application No. 10/707,317

closed position and the fully open position...

Specification reference;

Paragraphs; 117 and 121

Claims 1 and 17;

(e) means for substantial fluid sealing between said conduit outlet and said first gate member, between said conduit outlet and said second gate member, between said first and second gate members, and between said first and second gate members interface and said conduit outlet...

Specification reference;

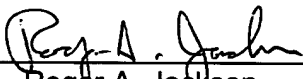

Paragraphs; 118, 119, 120, 121, 122, 123, 124, 125, and 126

Application No. 10/707,317

Applicant respectfully requests that a timely notice of allowance be issued in this case.

Respectfully submitted,

Roger A. Jackson, Esq.
